DETAILED ACTION

Allowable Subject Matter

1. Claims 15,20-23 are allowed.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 10-14 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These claims recite 'a coredump function...takeover function...' which merely recite software per se. Please see page 15, lines 1-6 of the specification and page 9, lines 7-12 of the specification.

Claim Rejections - 35 USC § 112

- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 5. Claims 1,27 recite the limitation "the event". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.
- 6. Claim 4 recites the limitation "the failing filer". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.
- 7. Claim 4 recites the limitation "the coredump file". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.

Application/Control Number: 10/764,809 Page 3

Art Unit: 2113

8. Claim 4 recites the limitation "the file system root". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.

- 9. Claim 4 recites the limitation "the attribute". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.
- 10. Claim 10 recites the limitation "the attribute". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.
- 11. Claims 16,24 recite the limitation "the earlier". There is insufficient antecedent basis for this limitation in the claim. There is no previous recitation of this limitation.

Claim Objections

- 12. Claim 6 is objected to because of the following informalities: In claim 6, 'less than a maximum time a panic' should be 'less than a maximum time of a panic'. Appropriate correction is required.
- 13. Claim 25 is objected to because of the following informalities: In claim 6, 'The method as et forth' should be 'The method as set forth'. Appropriate correction is required.

Response to Arguments

14. Applicant's arguments with respect to the rejection(s) of claim(s) 1-26 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

However, there are 112 2nd lack of antecedent basis issues and a continued 101 rejection that the above indicated claims are rejected for.

Art Unit: 2113

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yolanda L. Wilson whose telephone number is (571) 272-3653. The examiner can normally be reached on M-F (7:30-4:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Beausoliel can be reached on (571) 272-3645. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
